

Please leave the Telephone Privacy Law the way it is now. I can really enjoy my time at home. Use to be ever time we set down to eat our evening meal (no matter what time of an evening it was) we were always enterupted by telephone solicators. Now since signing the no call list we are not bothered by the calls. So please don't go and screw up a good thing by changing it. Thank You  
Allen and Carol Fulling
